U.S. AIR FORCE

U.S. AIR FORCE

- Objectives
- Approach/Initiatives
- References/Integration

- Develop an AF acquisition domain architecture consisting of the following:
  - Operational views
  - System views
  - Technical views
- Understand what acquisition the capabilities and components
- Look across the AF domains and see what is being done and to foster architecture integration .
- Goal: to improve architecture implementation /execution and IT investment across the entire acquisition domain and to develop a Air Force acquisition domain architecture.

U.S. AIR FORCE

- **Operational Views**
  - **Air Force Acquisition Process**
    - **In development – SAF/AQXA APAT**
      - Processes
      - OV-1
      - OV-5
- **Systems Views**
  - **Systems List (Draft)/Attributes**
    - **SV-1**
    - **SV-3**
    - **SV-4**
    - **SV-5**
    - **Interfaces with other domains**
    - **Operational views with system views (OV-3)**
  - **Technical Views- not started**

- **DoD 5000 Model**
- **EAIC – Tool selection**
- **OSEA**
- **BMMP**
- **BEA**
- **DoDAF**
- **C4ISP Framework**
- **CIO/AF reference models**
- **Etc….**
